DUG#1 Closing Remarks #1

The Dasharo FidelisGuard Z690 is the first Qubes-certified desktop computer!

2023-03-15 by **The Qubes team** in **Announcements**

It is our pleasure to announce that the **Dasharo FidelisGuard Z690** has become the fourth **Qubes-certified computer** for Qubes 4.X and the **first** Qubes-certified desktop computer **ever**!

(In related news, the **Dasharo User Group #1 and Dasharo Developers vPub 0x6** virtual event is tomorrow and will include an interview with our project lead, **Marek Marczykowski-Górecki**!)

About the Dasharo FidelisGuard Z690

- We seek exceptional candidates passionate about **open-source**, **BIOS**, and **low-level firmware**.
- Utilizing projects like **coreboot**, **UEFI/EDK II**, **U-Boot**, and **Linux kernel** to create solutions for clients.
- Valuing expertise in navigating **open-source tools** and **community** to contribute to the overall development of the open-source firmware ecosystem.
- Comprehensive **training** and **certification** are available, as well as opportunities to attend **international open-source conferences** and community events.
- Join our mission to make a difference in the open-source community and become a part of a supportive and collaborative team. 🌍

- Contact us at **career@3mdeb.com** or visit **https://3mdeb.com/careers/** to apply.
- *P.S. If you don't feel ready, don't worry. Please visit https://ost2.fyi and start learning from there.*
