👋 Dasharo User Group #5 🎉

Greetings, Agenda

Dasharo User Group

- Forum where Dasharo Team and Partners share knowledge and inform about Dasharo-related development
- Happen quarterly since beginning of 2023
- Thigh schedule, little time for questions, recordings published on YouTube

Dasharo Developers vPub

- Virtual meetup which gather developers and technology enthusiasts for open discussion on open-source firmware related topics
- Slowly drifting in more formal mini-conference
- Focus on practical aspects of security and firmware: demos > short talks > discussion panels
- Casual and relaxed atmosphere

DASHARO

3mdeb brands

PET	Dasharo	Zarhus OS
Tailored training in firmware and embedded systems, for cutting-edge security and transparency.	Innovative firmware solutions with open-source at its core for enhanced security and trust of your hardware.	Advanced, secure, and adaptable Yocto-based OS for the demands of modern embedded systems.

- Each brand in its core has open-source code
- Each brand may contain family of products
- Each brand mean team of people in 3mdeb
- Dasharo: Dasharo Enterprise, Dasharo(coreboot+UEFI), Dasharo(coreboot+heads), Dasharo(coreboot+SeaBIOS)
